Brook trout  
Smallmouth bass  
Largemouth bass  
White perch  
Yellow perch  
Chain pickerel

Minnows  
Golden shiner  
Common shiner  
White sucker  
Hornpout (bullhead)  
Pumpkinseed sunfish  
American eel

## Physical Characteristics

Area - 29 acres

Maximum depth - 42 feet

Temperatures:

Surface - 78<sup>0</sup>F

35 feet - 44<sup>0</sup>F

Principal fisheries: Smallmouth bass, largemouth bass, white perch, chain pickerel

Jump Pond lies in a pleasant setting at the base of Level Hill in the town of Palermo. Wild brook trout were occasionally caught here in the past, but with increased competition from warm water fishes, trout are nearly extinct. Smallmouth bass and largemouth bass have now become well established and offer very good fishing to the summer angler.

Surveyed - August, 1953

Revised - 1969, 1998
